COURSE DESCRIPTION	
<p>Wide Area Work Flow (WAWF) is a DoD-wide application designed to eliminate paper from the invoice, receipt and acceptance process in payment process on Army contracts. The goal is to enable Defense contractors and DoD personnel the ability to create/approve invoices, receiving reports for payment against Army contracts.</p> <p>The use of WAWF eliminates the traditional business method requiring three paper documents to make a vendor payment - the contract, the receiving report and the invoice that are in paper today are converted in WAWF to electronic documents. These documents are created once and then shared, by all users in WAWF thus eliminating manual paper routing, and redundant data entry. Data accuracy is increased and the risk of losing a document is greatly reduced.</p>	
WHO SHOULD ATTEND/PREREQUISITES	
<p>Inspectors, receivers, acceptors, and any personnel that create/approve and fax paper DD250 receiving reports against Army contracts and send them to DFAS. Logistics, contracting, and or resource management personnel need to attend this training.</p>
